

Immunization Policy

We must have a copy of your child's immunization card for their file by their first day, and all shots must be up to date.

✦WHAT THE LAW REQUIRES OF US

As a certified child care provider, we may only care for children who are immunized, or whose parents provide a copy of the training they completed in order to claim an immunization exemption.

✦KEEPING RECORDS CURRENT

- ✦ Bring a copy of the immunization card on or before the first day of care.
- ✦ Immunization records are due within **30 days** of enrollment at the latest.
- ✦ Please give us a **new copy every time shots are updated**, so your child's file stays current.

If you're not sure whether your child's record is up to date, bring what you have and we'll look at it together. Your child's pediatrician or the Oregon immunization registry can provide a copy if yours has gone missing.
